

Silage Defacer

PALADIN LIGHT CONSTRUCTION

FEATURES:

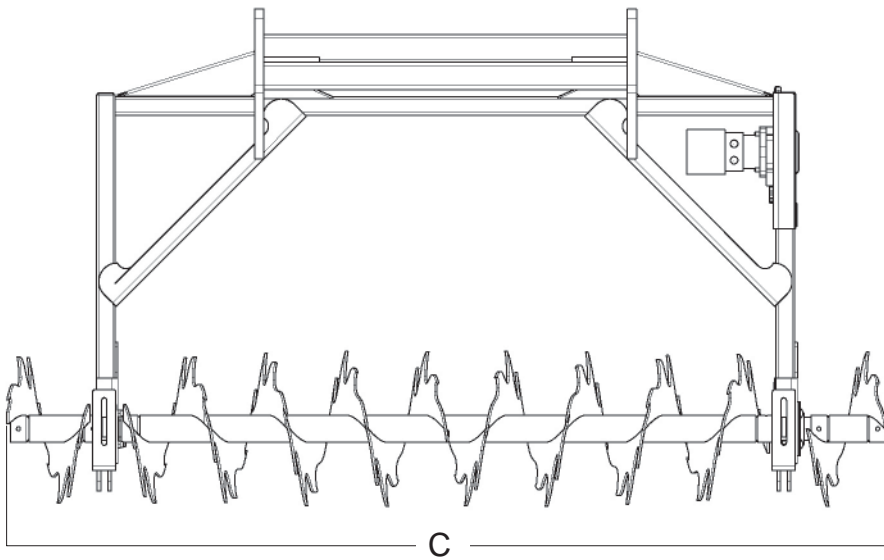

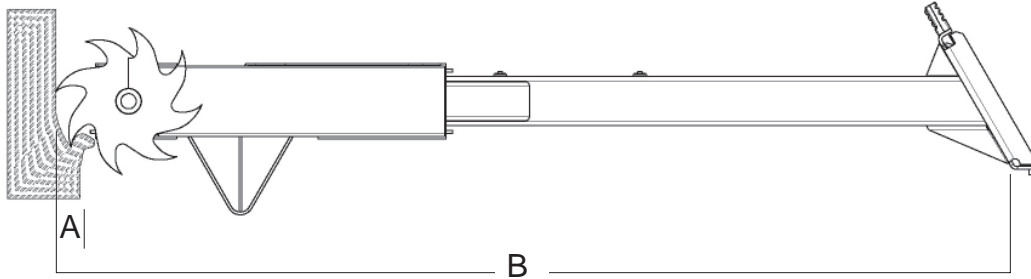

- open Helix pick design removes haylage & silage from tightly compacted bunkers without cutting or sizing the material
- maintaining haylage stem length optimizes digestibility yielding higher milk production
- bunker face maintains smooth and compacted for reduced spoil and improved palatability
- open design allows operator to see bunker face and remain clog free
- 96" full width cut allows defacer to cut next to walls and straight through to back of bunker (this feature allows side by side feeding of silage & haylage)
- 2 year limited warranty

Silage Defacer SPECIFICATIONS

Silage Defacer

A. fixed depth	0" - 3"
B. skid-leader reach	10"
